

CITY of MALABON UNIVERSITY

Pampano cor. Maya-Maya Sts., Longos, Malabon City

ACTIVITY 1: INTEGRATIVE PROGRAMMING AND TECHNOLOGIES 1

Name: Cabilangan, Dave Joseph A.

Professor: Sir. Christian Esguerra, MIT

Year and Section: BSIT - 3A

Submitted: August 17, 2026

ACTIVITY: Create an XML file named university.xml for a universit's student information system.

The image shows two side-by-side windows. The left window is Notepad++ editing a file named 'Cabilangan_Activity1_IPT.xml'. The XML content is as follows:

```
<?xml version="1.0" encoding="UTF-8"?>
<university>
  <universityInfo>
    <name>City of Malabon University</name>
    <course>Bachelor of Science in Information Technology</course>
    <academicYear>2026-2027</academicYear>
  </universityInfo>
  <students>
    <student id="STU001">
      <name>Juan Dela Cruz</name>
      <course>BS Information Technology</course>
      <yearLevel>1st Year</yearLevel>
      <email>juan.delacruz@example.com</email>
      <subjects>
        <subject code="IT101">
          <title>Introduction to Computing</title>
          <units>3</units>
        </subject>
        <subject code="IT102">
          <title>Computer Programming 1</title>
          <units>3</units>
        </subject>
        <subject code="GE101">
          <title>Understanding the Self</title>
          <units>3</units>
        </subject>
      </subjects>
    </student>
    <student id="STU002">
      <name>Maria Santos</name>
      <course>BS Criminology</course>
      <yearLevel>2nd Year</yearLevel>
      <email>maria.santos@example.com</email>
      <subjects>
        <subject code="CRIM201">
          <title>Criminal Law and Jurisprudence</title>
          <units>3</units>
        </subject>
        <subject code="CRIM202">
          <title>Forensic Science</title>
          <units>3</units>
        </subject>
        <subject code="CRIM203">
          <title>Criminological Theories</title>
          <units>3</units>
        </subject>
      </subjects>
    </student>
  </students>
</university>
```

The right window shows a web browser displaying the XML file. It shows a message: "This XML file does not appear to have any style information associated with it. The document tree is shown below." followed by a tree view of the XML structure, which matches the content in the Notepad++ window.

The image shows the continuation of the XML file content in Notepad++ and its preview in a web browser. The XML content continues from the previous block:

```
<student id="STU003">
  <name>Pedro Reyes</name>
  <course>BS Accountancy</course>
  <yearLevel>3rd Year</yearLevel>
  <email>pedro.reyes@example.com</email>
  <subjects>
    <subject code="ACC301">
      <title>Intermediate Accounting 1</title>
      <units>3</units>
    </subject>
    <subject code="ACC302">
      <title>Income Taxation</title>
      <units>3</units>
    </subject>
    <subject code="ACC303">
      <title>Auditing and Assurance Principles</title>
      <units>3</units>
    </subject>
  </subjects>
</student>
<student id="STU004">
